## ALBERNI LIBERALS SELECT CANDIDATE

### H. C. BREWSTER THE CHOICE OF CONVENTION

Vote of Confidence in J. A. Macdonald, M. P. P.—Outlook Bright for the Party.

(Special to the Times.)  
Alberni, Aug. 29.—By the unanimous vote of the Liberal convention held at Alberni last night, H. C. Brewster, of Clayquot, was selected to lead the Liberals to victory at the next general election.

The district was well represented. Unity and good feeling prevailed at the meeting.

Mr. Haggart, of Wellington, was elected to the chair, and J. Grice, of Clayquot, secretary.

Mr. Brewster was nominated by W. S. Plante, of Texada, seconded by J. Halpern, of Alberni.

After some of the different districts represented had been heard from, the chairman put the motion which was carried with enthusiasm.

Mr. Brewster is well and favorably known on the west coast of Vancouver Island, and the prospects are exceedingly bright for the Liberals at the next general election.

The following resolution was also carried with enthusiasm:

"Resolved, that a vote of confidence be tendered to J. A. Macdonald, M. P. P., leader of the provincial Liberal party, and that this convention pledge themselves to do their utmost to return a supporter of the Liberal party at the next general election."

Mr. Brewster, the choice of the convention, is regarded as a sure winner at the next election. He is a local man, having charge of the Clayquot cannery, in which he is deeply interested personally. He is well-known in Victoria, also having resided here for many years before embarking in the cannery business. He still makes Victoria his home during the winter seasons.

Mr. Brewster is well informed on public affairs, having always taken a deep interest in politics. In addition an experience on the daily press of the East has given him a varied insight into matters affecting the public.

He is extremely popular both in Victoria and on the West Coast, where his business relations have brought him into close contact with the settlers for many years past.

**SHOT BY THIEVES.**  
Frisco Policeman Mortally Wounded by Two Men Who Made Their Escape.

San Francisco, Aug. 29.—Shortly after 12 o'clock last night Policeman James Cook was shot four times through the abdomen by two thieves whom he had arrested at the corner of Seventh and Townsend streets. Both thieves got away, though Cook shot five times at them after he had fallen to the ground.

The officer was taken to the Emergency hospital, where it was said he could not recover. The only clue to the identity of the thief of the thieves was a hat which Cook shot from the head of one of them.

**THE CUBAN REVOLT.**  
Rumors of Conspiracy Among Police and Quarrel Between President and Vice-President.

(Associated Press.)  
Havana, Aug. 29.—Rumor is busy to-day with suggestion of a conspiracy among the police and an open quarrel between President Palma and Vice-President Mendez Capote. Both reports lack definite confirmation.

In certain quarters Capote is suspected of bargaining with the insurgents. In the reported quarrel at the palace latter week, the Vice-President is said to have passed, culminating in Palma denouncing Capote as a traitor. The Vice-President is said to have replied that Palma was a president without power.

**Two Engagements.**  
Havana, Aug. 29.—A fight took place last night at Calabazal, between 300 insurgents and 100 regulars. The guards retreated with one man wounded.

An engagement between insurgents and government troops is reported to have occurred last night near Artemisa, province of Pinar del Rio, near the Havana border. The result is not known.

Several exchanges of shots have been reported at various places west of Guanajay, near the Havana border, in Pinar del Rio. Reinforcements of 50 rural guards have been sent there.

**Moving Against Guerra.**  
Havana, Aug. 29.—The actual pursuit of Pino Guerra began to-day. General Avales, commander of the government forces in Pinar del Rio, left San Juan Martinez in search of the main insurgent body. The latter is now estimated to number 2,000 men. If Guerra's recent statements can be considered trustworthy there will be no battle if he can help it. He is now in the mountains of the Sierra de Escambray.

The general opinion, however, is that the government forces will not be able to capture him. Progress is being made daily in arming, equipping and forwarding government troops to the disturbed districts. There is some talk of sending the army to Pino Guerra's force will continue to exist. Food crops are not raised to any extent in the province of Pinar del Rio, the soil being entirely devoted to the cultivation of tobacco.

The construction of earthworks for the defense of the city of Pinar del Rio is being pushed.

## EARL GREY'S TOUR

Spent Several Hours at Saskatoon and Then Proceeded to Prince Albert.

(Associated Press.)  
Saskatoon, Aug. 29.—Earl Grey, governor-general of Canada, arrived in Saskatoon by special train at 12.20 to-day. He was met at the depot by the mayor and a large crowd of citizens and school children. An address was read to His Excellency by the mayor, to which a hearty and thoughtful reply was made by the governor-general and delivered with vigor. Immediately following the address and singing by the school children, Earl Grey retired. His injured eye was covered, but it is very much improved. The party proceeded to Prince Albert, and will spend to-morrow in that vicinity.

## CONSUL MURDERED.

(Associated Press.)  
Tientsin, Aug. 30.—M. Laptev, the Russian consul here, who was shot yesterday by a Russian contractor named Levinsky, died at 2 o'clock this morning. The murderer is not a revolutionist.

## ENGINEER MISSING.

Probably Murdered by Bandits While on Way to Tientsin.

Tientsin, Aug. 30.—A British engineer named Willis, who was travelling from Jehol to Tientsin, has been missing since July 2nd. It is feared that he has been murdered by bandits.

## EXPORT OF CATTLE FROM WINNIPEG

THIRTY THOUSAND HEAD ALREADY SHIPPED

The Animals are all in Prime Condition and Prices Have Been Steady.

(Associated Press.)  
Winnipeg, Aug. 30.—These are busy days for the C. P. R. stock yards, remarked H. A. Mullins, one of the leading cattle exporters of the West yesterday in an interview. "It makes a fellow rub his eyes and wonder if the little pens in which the cattle export trade started a few years ago. There have been days during the last two weeks when there have been 6,000 cattle in the yards and long trains of unloaded cars on the tracks."

"The forward movement of cattle has never been so early or so satisfactory for years. The winter was a very favorable one for cattle on the ranges, and this was followed by abundant rain in May and consequently a luxuriant growth of vegetation and the cattle are in prime condition."

"To give you an idea of how early the movement is I may mention that such ranching companies as the Knights and Eldridge Bros., who had not shipped a hoof before September 15th last year, are almost through with their shipping for this year. Up to date some 20,000 head of exporters have gone forward."

"Prices have been steady, and have never touched the low points of last year. Ocean space has ranged about 35 shillings to 40 shillings or about the same as last year, and has been well taken. Many going out by Boston and Philadelphia because it has not been possible to get sufficient carriers out of Montreal."

"There has been no trouble in disposing of good steers and ranchers have been taking home more money than for the past three seasons. They are a great many ranchers are shipping their own. They secure the ocean space and then very frequently sell out steers and ocean space to some dealer in Winnipeg. A great many train loads have been disposed of in this way this year. It is a good arrangement for both parties. It saves the dealers the time and trouble of going to the ranges to buy and the rancher gets his cattle started, and if he does not like the price there is nothing to hinder his shipping them through to the Old Country himself."

"The free movement of cattle so early in the season will be a great relief to the railroads, as there will be a lot of cattle trains to congest traffic when the wheat movement commences. The services of cattle trains has been very good this year. This is an all important matter to cattlemen, as the big shrink is always on the long railway journey."

"The outlook for the time of year was never better, in fact I have never seen the ranching country look so well."

## TURKS AGGRESSIVE.

Reported to Have Occupied Twenty-Five Villages—Persia Enters Protest.

Constantinople, Aug. 29.—The Persian government has entered a protest against the Turkish government's denial that the alleged encroachment has taken place, but nevertheless the ambassador has lodged an energetic protest with the Porte, and has demanded the recall of the troops.

The Marquis di San Mulline, who was foreign minister in the Italian cabinet, has been appointed ambassador to the Court of St. James.

## RUSSIAN PREMIER WANTS FREE HAND

### EMPLOYING NEWSPAPERS TO FIGHT COURT CABAL

Resents Interference Which Makes It Impossible to Carry Out His Programme.

(Associated Press.)  
St. Petersburg, Aug. 30.—It is asserted that Premier Stolypin and his colleagues are employing the newspapers which they control to fight the Court Camarilla. This, it is said, is the secret of the Novoe Vremya's constant references during the past few days to the necessity of protecting the cabinet from the interference of pernicious court influences.

M. Stolypin is said to have declared that he is continuously subjected to embarrassment, adding that he was convinced that the one task which he had set himself was impossible unless the Emperor gave him an absolutely free hand. In other words, conferred upon the cabinet a practical dictatorship.

In a conversation with friends, the premier is alleged to have said that the history seemed to be repeating itself, the situation closely resembling the closing days of the reign of Alexander III. and the reactionary spirit was growing rapidly. Nevertheless he considered it vital that the government should not take a reactionary path.

**Martial Law.**  
St. Petersburg, Aug. 30.—An imperial Ukase issued to-day authorizes the minister of finance to issue \$2,500,000 in 4 per cent. rentes to cover the expenses of the relief of the districts affected by the failure of the crops.

Another ukase prolongs martial law, where it has already been enforced for another year.

**Revolutionary Magistrate.**  
Kiev, Russia, Aug. 30.—A persecution at the residence of M. Mininski, who is examining magistrate for political crimes here, has led to the startling discovery that he was a member of the revolutionary organization, and that his residence was the headquarters for the propaganda in this vicinity.

## HEAVY SALES OF CITY PROPERTY

TWO BUSINESS BLOCKS RECENTLY CHANGED HANDS

Trustees of Green-Worlock Estate Dispose of Troncoe Avenue Property—Other Transfers.

Though the name of the purchaser has not been made public, it is known that Bernard Helsterman, trustee of the Green-Worlock estate, has sold the property at the corner of Troncoe avenue and Broad street, to a local man, the consideration being in the vicinity of \$30,000. A substantial deposit has been paid on the purchase price, but the sale will not be completed for a week or ten days. The property includes the offices occupied by R. L. Drury and others and the Y. M. C. A. upstairs.

It is not intended to declare a dividend to depositors in the defunct bank at the present time. There is other property remaining to be disposed of and the proceeds of the present sale will be placed in the bank until other assets are realized upon.

Another sale of importance was that to Frederick Moore, director of the Victoria Chemical Works, of the block on Government street occupied by Sea & Gowan and others. The price is stated to be about \$32,000, and Mr. Moore has purchased the block as an investment. At present no changes will be made in the premises. Both above sales were made by Helsterman & Co.

Russell Wilson, of Saskatoon, Sask., yesterday bought from Major Grellback the property known as "Saskatchewan Lodge," on Cadboro Bay Road. This sale was made by C. A. Guss.

## CONGREGATION OF JESUITS.

Meeting of Delegates Who Will Elect New General.

(Associated Press.)  
Rome, Aug. 30.—The delegates to the congregation of Jesuits are arriving here to go into convention to elect a general of the society. The election of the general of the Jesuits, as is known, is considered so great that from the society is called the "Black Pope," to signify that his influence in the Roman Catholic church rivals that of the Pontiff, the "White Pope."

This important post has been vacant since May, when the last general, Father Martin, died.

According to the constitution of the order of Jesuits, the ex-general leaves a species of will in which he indicates who among his assistants—five in number—shall act as his temporary successors until the election of a new general is held. In his will the late head of the Jesuits appointed as vicar Father Ruggiero Freddi, who was his assistant for the Italian provinces. The other assistants were Father Rudolph Meyer, of St. Louis, Mo., for the Anglo-Saxon provinces, Father Marjorie Meachler, for the German; Father Jno. Joseph De La Torre, for the Spanish, and Father Fine, for the French.

Father Freddi, who was in the order in St. Louis and having been president of the Jesuit colleges in Cincinnati, Chicago and Detroit, while in his youth he was a student at Woodstock, Md., university, where afterwards he taught philosophy.

The congregation of the Jesuits to elect the general has some resemblance to the conclave for the election of the Pope, there being the same secrecy and the same caution, no members of the society being allowed in the quarters of the congregation where only the appointed delegates can be present.

## THE CONSTRUCTION OF C. P. R. HOTEL

LIKELY NEW WING WILL BE UNDERTAKEN

Suggested That Last Wing Be Built Without Delay—To Consult the President.

When work on the new C. P. R. hotel was commenced it was understood that it would not be carried out in its entirety, the second wing being left until the growth of travel demanded increased accommodation. The situation, however, has changed to some extent, and it is altogether probable, in fact almost certain, that the handsome structure will be finished without delay.

The matter will be definitely decided, it is understood, when Sir Thomas Shaughnessy, president of the Canadian Pacific railway, visits the West. Those in favor of the original intentions being set aside in order to allow the contract to be completed will then lay before that official all the arguments in support of their desires. They will show that it would be a much better paying investment to put up the last wing right away than it would to allow it to remain unfinished for several years.

In a few months the hotel will be completed as far as outlined in the present contract. It will include kitchen, heating and all other facilities for a house of four hundred rooms. There will also be parlor accommodation, balconies and other accessories in keeping with a decided surplus has been created in the public accounts. Although there has been a falling off in the gold exports, the general trade has so improved that for New South Wales the exports last year increased by three million and a half pounds.

## AUSTRALIA IS AGAIN PROSPEROUS

### ADDITIONAL WHARVES NEEDED AT SYDNEY

Steamer Miowera Arrived This Morning From Antipodes—Improved Conditions Reported by Arrivals.

The Australian liner Miowera, arrived this morning about 8 o'clock from the Antipodes, after an uneventful voyage. She left after landing her passengers and discharging a small consignment of freight about two hours later.

Leaving Sydney under the command of Capt. Frank A. Henning on August 6th, moderate southeast winds were encountered during the run to Brisbane, which was reached two days later. After leaving Brisbane the weather for the most part was fine. From Suva a rough sea was encountered. Honolulu was reached on August 22nd. The stranded Manchuria was passed during the night time, so that nothing was seen of her.

At Honolulu, a very considerable quantity of cargo was discharged, but the steamer brought little to British Columbia ports. Only about 17 tons were discharged here and 470 tons will be unloaded at Vancouver.

The Miowera brought a large number of passengers, however, 175 in all. Included among them are the members of the Collier Comedy Company, which has been playing in Australia and open their American tour in this city next week.

Dodds, of this city, was among those who returned after paying a visit to friends in Honolulu. Capt. and Mrs. Rose are on their way to England.

Quite a number of the passengers are tourists, making a short trip to points in Canada and the United States. Arrivals by the Miowera bring reports that conditions in the Australian colonies have very much improved. The indications are that the dry cycle which affected the crops of Australia so disastrously for a number of years past has now been succeeded by much better conditions. The wet weather of the past season has given a bountiful harvest, and there has been also a very large increase in the trade of the country. This applies also to New Zealand, and the general reports are that the Antipodean colonies are experiencing an increasing good business.

As an evidence of this the port of Sydney is crowded with shipping. The extensive wharfage facilities have been found far too cramped, and the government is at the present time seeking additional wharfage.

The government is exercising economy and a decided surplus has been created in the public accounts. Although there has been a falling off in the gold exports, the general trade has so improved that for New South Wales the exports last year increased by three million and a half pounds.

There is an increase in the immigration to the Australian colonies, a sign of returning prosperity. The government is likewise encouraging the advent of new colonists, and altogether the evidences of prosperity in the country are marked.

The full list of passengers arriving by the Miowera was as follows: Mr. Lindsay, Mr. and Mrs. Swan and child, Mr. and Mrs. Howchin, Mr. Stolin, C. C. Driscoll, Mr. Myers, Mr. Hamilton, Mr. and Mrs. Fish, L. C. Fish, J. A. Fish, Master L. Fish, Miss F. Fish, Master S. Fish, Mr. Corbett, Mr. Harris, Mr. and Mrs. Butzki, Mr. Lawson, Mrs. Corrie, A. Dods, G. Bray, Miss A. Dunn, Mr. Dunn, Mr. Satchell, C. F. O'Brien, Mrs. O'Brien and two children, Mr. and Mrs. Young, Mrs. Renwick, J. P. Bell, Mr. and Mrs. Barnard, Mr. and Mrs. Harris, C. Harris, J. A. Roberts, F. Dunn, Miss Adams, J. Ward, Mr. A. Bull, Mr. McKenzie, G. Bennett, Mr. and Mrs. Nicholas, D. Adams, Mr. Anderson, Mr. Grundy, Mr. Arthur, Miss Arthur, T. Dillon, Mr. and Mrs. Dorer, Misses Forer (3), S. Fairbairn, W. J. Allen, A. Selch, Mr. and Mrs. Hamilton, Miss Moore, Mr. Chomes, Mrs. and Miss Newthams (3), Master Newthams, Rev. Mr. and Mrs. Shomisen, Mr. Norris, Mrs. Healy, Misses Healy (3), Master G. Healy, Mrs. Robertson and child, G. Bell, Mrs. K. Bell, Miss Kirchner, W. Howe, Mr. Wieble, Miss D. Aire, Capt. and Mrs. Rose, Mr. Williams, Mr. Blackburne, Mr. Fairbridge, C. Sharp, Mr. Clifford, Mr. Phillips, R. L. Adams, Mr. Moncrieff, W. G. Bell, H. Knouses, H. E. Gares, J. L. Logan, H. Lang, G. Lynch, Miss Knouses, Miss G. Chamberlain, Lee Woe, J. Lockie and the Collier company, including Wm. Collier, Miss McKennie, Miss Faglierro, Miss Stewart, Miss Haddell, G. Stewart, Mr. Nasto, Mr. Jackson, Mr. Barrymore, J. W. Dean, Mr. Goose, Mr. Laville, Mr. Martin, Mr. King, Mr. McCutcheon, Mr. and Mrs. Garrick.

There were also 42 Japanese on the steamer.

## EARTHQUAKES IN CHILL

Panic at Tacna is Indescribable—People Are Living in Public Square.

(Associated Press.)  
New York, Aug. 30.—A cablegram to the Herald from Tacna, Chili, says: "Heavy earthquake shocks have been felt, the panic is indescribable. People are living in the public square. The first shocks lasted 30 seconds. Slighter shocks continue at intervals."

## TO END RACE WAR.

Important Conference of Armenians Now in Progress.

Erivan, Russia, Aug. 30.—The first general conference of Armenians opened at the Armenian church in Erivan, which is the seat of the Armenian Catholic patriarchs. The principal subject for discussion is the question of the reorganization of the schools in consequence of the restoration of the Armenian church property by the Russian government, but the most important action of the congress is likely to be in connection with measures for ending the race war between the Armenians and Tartars.

## THE MUTUAL LIFE.

### CHANGES IN MEMBERSHIP OF THE FINANCE COMMITTEE.

(Associated Press.)  
New York, Aug. 30.—The Herald says: "Frederick Cromwell and Odrian Iselin have retired from membership of the finance committee of the Mutual Life Insurance Co., though re-elected directors. Thos. M. Mulvey, president of the Emigrant Industrial Savings Bank, who is one of the recently elected directors, and who was not associated with the Mutual Life during the McCurdy era, was named to fill the vacancy in the finance committee caused by Mr. Cromwell's retirement. Dumont Clarke, a lawyer who was a member of the old board, but whose record was in no wise impeached during the Armstrong inquiry, succeeds to the place on the committee vacated by Mr. Iselin. Mr. Cromwell was for many years the treasurer of the company during the McCurdy administration. After the retirement of Richard A. McCurdy, he served as acting president until the election of Charles A. Peabody."

## DOUBLE MURDER AND SUICIDE.

(Associated Press.)  
Lacrosse, Kas., Aug. 30.—As a result of a quarrel over the settlement of an estate at McCracken, 17 miles west of here, last night, Omar Young shot and killed Alexander Walker and Grant Pettyjohn. Young afterwards shot himself.

## FOR EXTENDING IMPERIAL TRADE

BRITISH COMMISSIONER ARRIVES IN VICTORIA

Richard Grigg, Government Representative, to Study Local Market Conditions at Length.

"We are a whole." These words were uttered with an air of finality by a sturdy, clear-eyed, British man of business this morning at the Driard. He was Richard Grigg, commissioner of the British Board of Trade, who is in Canada carefully considering what can be done to increase commercial intercourse between Great Britain and the Dominion. In advance of his official report to Rt. Hon. Lloyd George, Mr. Grigg, head of the department, he cannot enter into details, but spoke most instructively this morning as an ethnologist would permit. Mr. Grigg will probably remain in this city until after the arrival of the governor-general, with whom he is anxious to confer on the objects of his mission. While in Victoria he will gather all information possible as to the conditions in British Columbia and interview merchants personally and the officials of the board of trade. This morning he expressed his willingness to attend a meeting of the board during his stay.

Mr. Grigg's position in coming to Canada is analogous to that of the Dominion commercial agents in Great Britain. He said when seen at the Driard: "While I am only too anxious to do what I can to further Canadian interests in the Old Country, my principal mission is in what might be called the reverse direction, the stimulation of British merchants' trade with Canada."

"I am deeply interested in the future of the Dominion, for we are a whole. The preferential tariff that Canada has arranged in favor of Great Britain has certainly induced an increase of trade between the two countries. It has been the betterment of economic communication between the two countries. The latter method has not only bettered business, but is already commencing to bring about a larger degree of what might be deemed pleasant relations between residents of the Old Country and Canada."

"British Columbia is best known on old country markets by reason of its salmon. The Fraser river product is the standard of excellence everywhere. 'What about the prospects for fruit?' inquired the reporter. 'I have only been a few hours in your city,' replied Mr. Grigg, 'and I can say anything definitely as to that. It is really within the province of your own representatives in Great Britain to push this matter. You can be sure I will be happy to do anything I may point out, however, that trade is largely a matter of interchange and the more you purchase from Great Britain the more the old country will probably purchase from you. Canada is a theme of the greatest interest to the government at home. This is seen by my being sent out to study conditions. I cannot give details in advance of my official report, but you may be assured that where I can do anything to help British Columbia trade, or that of any other part of Canada, it will be not only a duty but a pleasure to do so."

Before leaving Mr. Grigg will appoint official correspondents for the British press in the various parts of the Dominion, probably one in each province. Who will receive this honor in British Columbia is not yet known. The appointment will be announced in a few days. To-day Mr. Grigg will visit the parliament buildings and interview R. M. Palmer, secretary to the bureau of information, and other government officials.

The average number of billiard balls thrown from the tanks of an elephant in ten minutes are at "Adrianople," are being remedied by the dispatch there of ten batteries of new Krupp quick-firing guns.

## WATER COMMITTEE ASKED OPINIONS

THEIR PROJECT WILL COME BEFORE PEOPLE

Forecast of Action of City Council This Evening Regarding the Water Question.

It is impossible to accurately forecast what will happen at to-night's meeting of the city council regarding the water question. More trouble will be caused by a side issue than by the chief bone of contention will be whether the city should pay for the reports of Expert A. Adams read at the last meeting on Monday evening.

The why and wherefore of these reports has caused considerable speculation. They have placed the water question on a new basis and brought out many facts that were eagerly digested by a large number of ratepayers. How and why they were obtained may best be given in the words of the alderman who is willing to accept the responsibility.

"I am the instigator of the obtaining of these reports," said not Fell to-day. "As you know, I went away on a short vacation directly after the council decided to lay the two proposals before the people. I heard the Mayor was trying to knife that of the water committee, and when I got to Vancouver began to think the matter over. After doing so I decided to write Ald. Stewart, chairman of the water committee, asking him to instruct the water commissioner to lay the water committee's and the Mayor's proposals before Mr. Adams and obtain his opinion. One reason animating me in doing this was to force the water committee to obtain an expert opinion on their scheme. Ald. Stewart did as I suggested, and Mr. Adams' valuable information is the result."

"Now I hear that the Mayor, because the council's authority should not be previously obtained, will try and hold these bills. If he intended such a course he should not have permitted the opinions to be made public. The public has had the benefit and will not, I believe, object to paying the cost. If his worship had been fair, he would have raised the objection before the documents were read to the council. In that event I would have paid for them out of my own pocket and kept the information to myself."

This statement places the matter in a plain light, and it will be interesting to see what will happen this evening.

The receipt of Mr. Adams' reports, which have been received with very mixed feelings, has caused a feeling among many of the aldermen that any expenditure would not be best at the present time. The question of distribution should be laid over until a complete scheme is formulated. In that event it would not be necessary to place a by-law before the people. The \$8,000 for the pump and not more than \$2,000 for cleaning the lake would be drawn from current sources. Chief among the advocates of this move is Ald. Hall, but it is hardly possible it will prevail.

Pressure has been brought to bear on the Mayor for forego advocating the 30-inch wood main by one of the council who has heretofore been the most ardent support. The success this move has met with is not yet known, and will not be until this evening.

A careful canvass of all the aldermen that could be seen to-day forces the conclusion that there will be practical unanimity in the council to favor the committee's proposals. A petition for a by-law to spend the sum of \$176,000 to carry this out is already before the board and could be acted upon at once. The petition asking for \$300,000 expenditure, as requested by his worship, will certainly not be acted upon. The \$176,000 by-law is not decided on one will be that absolutely follows Mr. Adams' suggestion. This would entail much additional expenditure for the Smith's Hill reservoir, and for this reason will probably not be presented.

The conclusion is therefore forced that it will be almost, if not entirely, the vote of the council to place the \$176,000 by-law before the ratepayers. Only one alderman, Yates, is considered at all doubtful, and it is believed he will fall into line. The Mayor may try to force his project, but it will be unsupported by any but a very small majority of the board of aldermen.

## BRYAN RETURNS.

(Associated Press.)  
New York, Aug. 30.—This is Bryan day in New York, and although the Nebraskaan, who last night slept on a yacht in Gravesend Bay, will not again see the city until late this afternoon, the many welcoming delegations in town were early astir putting the city in a festive mood.

It was after 1 o'clock this morning when Mr. Bryan returned to his hotel. He had spent last night with personal friends, he appeared in robust health. He has a clear complexion, his eyes shine and danced as he talked.

## THE MUTUAL LIFE.

### CHANGES IN MEMBERSHIP OF THE FINANCE COMMITTEE.

(Associated Press.)  
New York, Aug. 30.—The Herald says: "Frederick Cromwell and Odrian Iselin have retired from membership of the finance committee of the Mutual Life Insurance Co., though re-elected directors. Thos. M. Mulvey, president of the Emigrant Industrial Savings Bank, who is one of the recently elected directors, and who was not associated with the Mutual Life during the McCurdy era, was named to fill the vacancy in the finance committee caused by Mr. Cromwell's retirement. Dumont Clarke, a lawyer who was a member of the old board, but whose record was in no wise impeached during the Armstrong inquiry, succeeds to the place on the committee vacated by Mr. Iselin. Mr. Cromwell was for many years the treasurer of the company during the McCurdy administration. After the retirement of Richard A. McCurdy, he served as acting president until the election of Charles A. Peabody."

## DOUBLE MURDER AND SUICIDE.

(Associated Press.)  
Lacrosse, Kas., Aug. 30.—As a result of a quarrel over the settlement of an estate at McCracken, 17 miles west of here, last night, Omar Young shot and killed Alexander Walker and Grant Pettyjohn. Young afterwards shot himself.

## FOR EXTENDING IMPERIAL TRADE

BRITISH COMMISSIONER ARRIVES IN VICT

## WHALE BONE BRUSHES.

A year ago we were selling Whale Bone Hair Brushes at \$2.50 and \$2.75.

## STEAMER WRECKED ON LAKE WINNIPEG

EIGHT PERSONS KNOWN  
TO HAVE PERISHED

Two Men Killed by Premature Explosion  
—Physicians Coming to the Coast.

West Selkirk, Man., Aug. 29.—The steamer Princess, the largest passenger and freight boat on Lake Winnipeg, was totally wrecked at George's Islands on Sunday. Capt. Hawes, six members of the crew and a passenger are known to be drowned. Sixteen persons were saved.

Burned to Death.  
Fort William, Ont., Aug. 29.—Joseph Smith, an Austrian laborer, was burned to death in a fire which destroyed J. Cortelli & Son's store at Kakabeka Falls Tuesday night.

Claim on Street.  
Port Arthur, Aug. 29.—While engaged in digging a sewer here yesterday a laborer named McPherson struck a vein of quartz highly mineralized with silver and sulphate of copper, in quantities, and has staked a claim on the street.

Two Men Killed.  
Fort William, Aug. 29.—S. Peterson, foreman for Foley Bros. on the Grand Trunk Pacific construction, and an Italian name unknown, were instantly killed yesterday afternoon at Manitoulin by the premature explosion of a blast. The men were blasting in a rock cut. The fuse of a torpedo had been lighted, and before several men near could be warned, the explosion occurred. Peterson was literally blown to pieces. Three other laborers were injured, but not fatally.

En Route West.  
Winnipeg, Aug. 29.—Sir Thomas Barlow, physician to King Edward, Sir William Broadbent, and a party of other distinguished Englishmen passed through here to-day en route to the Pacific Coast.

Valuable Mare Dead.  
Toronto, Ont., Aug. 29.—Lord Rothschild's stable at the exhibition grounds sustained a heavy loss last night by the death of Blythwood, a handsome brood mare brought out from England along with King Edward's horses. The mare broke loose on Monday night, found the feed box and overate her food, dying last night from stomach trouble. She was valued at \$5,000.

Killed in Field.  
Stratford, Ont., Aug. 29.—During a heavy thunderstorm T. W. Hyde, of St. Mary's, whilst working in a field there, was struck by lightning and killed.

Instantly Killed.  
Ottawa, Aug. 29.—A young lady named Laura Moore, aged 21, daughter of Thomas Moore, living in the country three miles from Ottawa, was instantly killed by a bolt of lightning, and her sister-in-law was badly injured. The two ladies went to the bank of the river to spend the day, and

## Out of Sorts?

It's your liver! In nearly every case it's the liver. That means constipation, biliousness, dyspepsia, poor blood, headaches. Your doctor will tell you that good health demands at least one good, free movement of the bowels each day. Ask him if he knows any laxative better than Ayer's Pills.

## MUSICIAN KILLED.

Shot by a Storekeeper at Long Beach, California.

Long Beach, Cal., Aug. 29.—A sensational murder was committed on the streets of Long Beach to-day, when W. F. Wilson, storekeeper, shot four times and instantly killed Wallace F. Belden, a young musician. Belden was charged with the seduction of Wilson's 16-year-old daughter. Belden was a drummer in the Long Beach band. Some two weeks ago Wilson fired three shots at Belden, but none took effect. Shortly afterward Belden was arrested on a charge of felonious assault upon the Wilson girl. Mr. and Mrs. Wilson were also arrested, charged with assault and an attempt to murder Belden. The preliminary examinations of the three in the justice's court were set for to-day, and all of the parties involved were on the way to the courtroom when Wilson attacked the musician. Wilson was locked up.

## JAP STOWAWAYS ESCAPE.

Cut Panel From Door of Detention House at Port Townsend.

Port Townsend, Wn., Aug. 29.—By cutting the panel from an unprotected rear door by means of a pocket knife, four Japanese stowaways held in the United States detention house, awaiting deportation, escaped at midnight. One was caught within a few minutes, but the others were lost in the darkness. The leader of the gang, Yokoyama, a young lad eighteen years of age, led the escape after ten days ago, which resulted in recapture. When handcuffed he had no trouble in picking the lock and freeing himself. This morning his barefoot tracks were discovered five miles from the city, and inspectors and watchmen who are scouring the country have every hope of securing him as well as his two companions.

In the building occupied as a detention house, the doors of the windows have been left practically unprotected, and every escape to date was effected by this means.

## SYSTEM REQUIRES FREQUENT CLEANING.

Not only outside but inside as well, your body must be frequently cleaned. Otherwise it becomes loaded with wastes that clog up the wheels of health. Much better to act in time. Use Dr. Hamilton's Pills; they strengthen and regulate the bowels, assist digestion, enrich the blood and thereby fortify the nerves and lay the foundation of lasting good health. Dr. Hamilton's Pills bring vigor and vitality as much sought for to-day; they infuse a feeling of freshness and spirit in those who have been ailing for years. Really no medicine so potent. Price 25c. at all dealers.

## FRISCO STREET CARS STRIKE.

No Sign of Any Settlement in the Bay City.

San Francisco, Aug. 29.—The fourth day of the street car strike has found the disputing parties further apart than ever. The refusal of the men to accept for work and the withdrawal of the corporation that it is bringing out Farley's strike-breakers contributed to lessen the hitherto friendly feeling existing between employer and employee.

The carmen declare that they are not disturbed by the coming of the strike-breakers. They say that the western conditions are utterly dissimilar from those of the Eastern States, and that non-unionists will encounter entirely unlooked for obstacles. The railway officials have thus far declined to say when they will attempt to begin operating their lines. Farley is expected Saturday or Sunday, and if the company contemplates putting any of its plants in motion before that time, the move is being carefully guarded. At the various car barns the company has its guards, and union men are on picket duty, but the best of order prevails.

## THE SPOKANE MURDER.

Mental Irresponsibility Will Be Defence of Sydney Sloane, Who Killed His Father.

Spokane, Aug. 29.—Mental irresponsibility is to be the defence of Sydney Sloane, the 17-year-old boy who murdered his father, James F. Sloane, yesterday. The defence is to try to show that the young man is a mental infant, entirely undeveloped mentally and morally.

## THE PHILADELPHIA FAILURE.

Trust Company Was Virtually Bank of the Presbyterian Church.

Philadelphia, Pa., Aug. 29.—So great was the confidence reposed in Frank K. Hipple, late president of the Real Estate Trust Co., which was yesterday forced to the wall because of secret business transactions of Mr. Hipple, that the institution was virtually the bank of the Presbyterian church. Not only the General Assembly, which was a large depositor, but even the smallest Sunday school organization, and hundreds of individuals with abiding faith in the integrity of the late president, had entrusted their funds and savings to the institution.

Philadelphia, Pa., Aug. 29.—A meeting is in progress at the office of a large national bank, and it is stated that sufficient funds have been pledged to enable the Real Estate Trust Co. to reopen its doors within forty-eight hours. As a preliminary to this the court will be petitioned to dismiss the attorney's receivers.

## AGAINST ORGANIZED LABOR.

Wisconsin Judge Holds That Closed Shop Contract Is Illegal.

Racine, Wis., Aug. 29.—Union labor was dealt a heavy blow by the decision of Judge Chester A. Fowler in the boycott suit for \$25,000 damages brought by Baker Otto G. Schultz against the trades labor council, Benjamin Drossen and others. By the decision the contract exacted from the boss bakers by the union men, in an effort to force the closed shop, is held illegal; the trades council and the individual members enjoined from using the "unfair" list; the boycott is declared an actionable conspiracy to accomplish an illegal or unlawful purpose; Baker Schultz is allowed to recover damages for the loss of profits, and \$3,500 in damages for the amount of injury to his business and property in relation to its selling value. The decision in part is as follows:

"All boss bakers of the city signed this agreement, except the plaintiff, who has steadfastly refused to do so. Upon the plaintiff's refusal to sign, concerted attack on his business was begun by organized labor, with the object and purpose of compelling him, against his will, to sign the contract and has been maintained with more or less vigor up to the present time.

"The plaintiff has suffered a permanent and all but destructive injury to his business which has been caused by the combined acts and the attitude of organized labor. An injury to one's business and trade is on the same footing as an injury to his tangible property and the law furnishes a remedy for one as well as the other.

"The acts complained of are, in my view, plainly in violation of the Wisconsin statutes as construed by the Supreme court. This statute makes any two or more persons who shall combine, associate, mutually undertake or concert together for the purpose of wilfully or maliciously injuring another, his trade or business by any means whatsoever, or for the purpose of maliciously compelling another to do or perform any act against his will, guilty of an offence, punishable by fine and imprisonment.

"This contract was in itself an illegal contract in that it would by its terms obligate the plaintiff to employ union labor only as distinguished from non-union labor; it would obligate him to maintain a 'closed' as distinguished from an 'open' shop."

## ALLEGED SEAL POACHERS.

Trial of Japanese Valdez—The First Jury Disagreed.

Valdez, Aug. 29.—The Japanese who were brought to Valdez for trial for poaching on the seal island of St. Paul have been indicted by the grand jury; seven of them for violation of the Act of Congress of December 25th, 1897, prohibiting the killing of fur seal in the waters of the North Pacific, and five of them for violating the section of the Alaska code covering the killing of female seals.

The prisoners were bound over to the grand jury by Commissioner Kelsey, of Kodiak, on the charge of poaching under the provisions of section 531 of the revised statutes but the grand jury, on the strength of recommendations received from the department at Washington, returned an indictment as above.

## Failed to Agree.

Valdez, Alaska, Aug. 29.—The jury in the trial of the Japanese seal poachers captured on St. Paul Island has disagreed. Another jury is being empaneled.

## JAP NAVAL STATIONS.

Tokio, Aug. 29.—Under an agreement reached between Japan and Korea, it is understood that Chinsae and Yongheung will be converted into naval stations at an early date at the expense of Japan.

Chinsae is an important strategic point guarding the entrance of the Sea of Japan on the east coast of Korea, and will be a valuable protection against an attack on Korea from the north. The agreement is regarded here as being most important and is greeted with great satisfaction.

## YOUR WISEST COURSE.

If you are caught in the wet, get sore throat, neuralgia or muscular pain, don't wait for worse troubles. Begin prompt treatment with Poison's Nervine. It drives away all trace of cold, eases rheumatism, neuralgia and pain, saves you from a lay-up in bed.

No 25c. purchase can bring more comfort than a bottle of Poison's Nervine. It is the cleanest, strongest liniment made. Sold everywhere in 15c. and 25c. bottles.

A man is always taller in the morning than when he goes to bed. When you are asleep your stretch and grow.

VICTORIA, B.C.

## FROM ST. MICHAELS.

An Arrival From Far Northern Port Staying at the Dominion Hotel.

From St. Michaels to Victoria is the long trip which A. Klimesch, a guest registered at the Dominion Hotel, has just completed. Mr. Klimesch left St. Michael early this month, spending some time at Dawson and Selkirk en route here. Early in the year he made the run from Dawson to St. Michael in a Peterboro canoe, and says that it took him just 26 days. At St. Michael when he left shipping men were still awaiting the arrival of freight bound up the river. The Yukon was falling rapidly, and unless this arrived soon some difficulty might be experienced in freighting it up stream. Coming down the river the travel was large. All the Fairbanks people, Mr. Klimesch says, travel in this direction in preference to the Dawson route, which takes them some days longer, and is less convenient. According to this northern arrival there are too many people at Fairbanks, and the country is not so rich in mineral wealth as the territory on the Canadian side of the boundary. In the Canadian Yukon there are better chances both for the prospector and miner.

Mr. Klimesch witnessed a number of the large hydraulic plants working on Bear creek and the Bonanza river, and he reports that these plants were doing well. On the steamer from Skagway he had as fellow passengers Mr. Wise and party, who were coming south to secure a large hydraulic plant. They expected to return north in March.

## MEN'S LIKES ARE ALIKE.

Young Men Want Smarter Designs Than the Elders in Clothes.

Young men like the collegian style of the Semi-Ready tailoring, a very chic sack suit, but they want also the double-breasted coat. Ask to see these when you look at the Semi-Ready tailoring. They have a distinction all their own, and in the physique type method there is a perfect fit for every man, short, stout, tall, thin, slim, normal or abnormal—every type of manhood has its Semi-Ready style of suit. The \$15 Semi-Ready suits have the same style and work on them as their \$20 or \$25 suits. B. Williams & Co., Yates street.

## BRIEF TELEGRAMS.

Dispatches from Santander, Spain, report serious conflicts between the troops and strikers, with numerous casualties on both sides. Two brigades of troops have been ordered to the scene. Official circles fear an extension of the strike to other great cities. The government is making preparations to meet the situation.

Fifteen days in jail, without the option of a fine, was the sentence of Judge Murphy in the Buffalo police court, Wednesday, upon John A. Miller, the chauffeur who, on the evening of August 21st last, ran down and severely injured Fred Marshall.

## EUROPEAN AGENCY.

Indents promptly executed at lowest cash prices for all kinds of British and Continental goods, including:

Boots, Shoes and Leather Goods, Chemicals and Druggery, Sunbries, China, Earthenware and Glassware, Drapery, Millinery and Piece Goods, Fancy Goods, Pottery and Stationery, Hardware and Machinery, Photographic and Optical Goods, Provisions and Groceries, etc., etc.

Commission 2 1/2 per cent, to 5 per cent. Trade Discounts allowed. Original Invoices supplied. Special Quotations on Demand. Sample Cases from £10 upwards. Consignments of Produce Sold on Account.

(Established 1810)

25 Abchurch Lane, London, E. C.

Cable Address: "ANNUAIRE, LONDON."

DEPARTMENT OF PUBLIC WORKS, CANADA

## Tenders for Coal

Sealed tenders, addressed to the undersigned and endorsed "Tender for Coal," will be received at the Resident Engineer's Office, New Westminster, up to noon of Friday, the 31st instant, for the supply of coal required for the Esquimalt Graving Dock and in connection with Victoria Harbor Works up to the end of the present fiscal year on 31st March, 1907.

The coal must be a British Columbia product of approved quality, Lump or Washed "Nut," and delivered in such quantities as may be required for the Esquimalt Graving Dock to be delivered and stored in bunkers in Dockyard, and that for the "Mud Lark" to be delivered in lots of 150 to 200 tons at the Government Wharf, Victoria Harbor, on scoops furnished by the Department of Public Works, the towing to be done by the Contractor.

The lowest tender will not necessarily be accepted.

G. A. KEEFER, Resident Engineer, Resident Engineer's Office, New Westminster, B. C., 15th August, 1906.

## FOR SALE.

As going concern, Confectionery Store, well situated, doing good business. Small capital required to purchase and maintain the business. Owner leaving Victoria. See F. J. BITTANCOURT, Auctioneer, AT THE ARK, Or Phone 3432.

## THE NEW FRENCH REMEDY THERAPION

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

**THERAPION No. 1** is a remarkably short time, often a few days only, removes all discharges from the urinary organs, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

**THERAPION No. 2** for urinary ailments, blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gonorrhea, and all diseases for which it has been too much lauded in the employment of mercury, sarsaparilla, etc., to the destruction of sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

**THERAPION No. 3** for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigor to the debilitated.

**THERAPION** is sold by the principal Chemists and Merchants throughout the world. Price in England 2/6 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word "Therapion" as it appears on British Government Stamp in white letters on a red ground affixed to every package by order of His Majesty's House of Commons, and without which it is a forgery. Wholesale from Henderson Bros., Ltd., Victoria, B. C.

## J. E. PAINTER

## Investors from the East

Is it Acreage you want or City Lots?

We have, 5 ACRE LOTS, 10 ACRE LOTS, FARMS, all kinds of PRICES, all parts of city.

Business, Churches, Warehouse, Factory and Hotel sites. Mines, Mining and Industrial stocks.

**H. H. JONES & Co.** Note the Address, Rooms 15 to 23 Promis Block, 46 Government St. Telephones 143 and A329.

# GARDEN MEDICINES

Ripe tomatoes are a substitute for certain drugs.

To break up a cold.

WITH all its host of ready-made preparations awaiting us in Nature's laboratory of the garden and orchard, most of us would be better off if we tried some of those remedies before rushing off to experiment with drugs.

If half the people who turn to calomel and like drugs every little while would eat freely of raw tomatoes, or if they have tendencies to gout and rheumatism and find tomatoes aggravate it, to

medicinal qualities, and carrots are good blood-makers. As for onions, they are a sort of tonic, eaten raw, boiled, baked—any way but fried, which is apt to make them indigestible.

When fresh fruits seem too much of a tax upon the digestive organs, the stewed ones may be substituted, but the amount of sugar used should be as little as possible—only enough to overcome the acidity of the fruit.

Whenever pimples make their appearance upon the face or body, it is usually a sign that the blood needs cooling. Reducing your diet to vegetables and fruit for a few days, eating plenty of the green vegetables and of tomatoes, should accomplish the result without recourse to other "medicines."

Peaches and pears and plums all serve their purpose as medicines, most of them mildly laxative; all of them splendid appetizers.

Grapefruit is as good a tonic, so say its followers, as quinine, without any of the ill effects following its use as are too apt to follow the taking of quinine.

Orange juice is nourishing. It is said that one could live upon a diet of five or six oranges a day, and live in good health and spirits.

Lemon juice, squeezed into hot water, is good to take when you have caught a severe cold.

Sugar may be added to make it more palatable if desired, although, as the stomach is always more or less upset at the time, the sugar is a little better omitted.

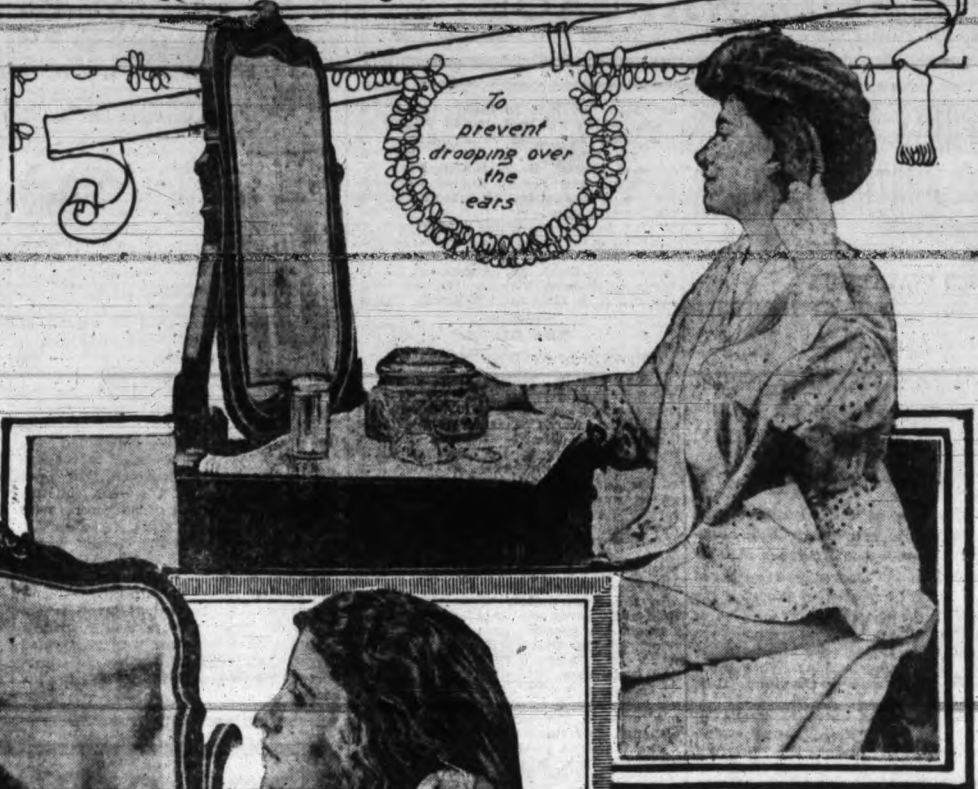

# Training Refractory Locks in the Way They Should Go.

WITH all its fluff and wave, the culture of the present day is a very neat affair, with every lock disposed just so, and the result a head that warrants the rather ambiguous term "well-dressed" applied to it.

Getting that result is a matter of patient training of the hair, of persuading certain rebellious curly locks to lie in place and hair of the kind that packs together in a hopeless flat way to change its nature and fluff up prettily. Brushing is the first requisite—not the usual brushing, which has so good an effect upon hair and scalp, but definite, well-directed strokes of the brush, always taken in the direction in which you want the hair to turn, even dampening the hair a little to assist in the process.

If you follow your regular brushing every night with a few minutes' special brushing upon these principles, a week or two will show results that are their own best proof, whether or not it is worth while.

If you have been wearing your hair low, and want to put it up on top of your head, bring the hair over your ears, brushing vigorously up from the roots, and repeating the brushing every night and every time you fix your hair. If it shows a decided tendency to droop—as it probably will for awhile,

To prevent drooping over the ears.

Make every brushing tell.

## On the Care of the Hair

skin food, and when rubbed in well and frequently, tends to fatten the neck. Peroxide of hydrogen is a popular and reliable bleach, though there are other methods. During the summer, buttermilk baths for your hands, and applications of raw cucumber juice are seasonable. Following is a tonic for falling hair:

**Falling of the Hair.**  
Tincture of nux vomica, 1 ounce; spirit of rosemary, 2 ounces; alcohol, 1 ounce. Apply several times a week to the roots of the hair.

**Hair Splits at Ends.**  
Will you please give me a home remedy for freckles? Also for my hair? It splits at the ends and breaks off. Please state something that will not cost much.

The following formula is good for freckles:  
**For Obsolete Freckles.**  
Oxide of zinc, 15 grains; sublimed of bismuth, 15 grains; distilled water, 1 ounce. Glycerine, 15 grains. Mix, then add a few drops of lemon juice. Rub on the face at night before going to bed. In the morning remove what remains with a little powdered borax and sweet oil.

I would advise singeing the ends of the hair about once a month. This seals the ends and so helps to retain the natural oil.

**To Make Toilet Vinegar.**  
It is possible, I would like you to inform me, through your columns, how to make toilet vinegar, as I can't buy it here at the drug stores. E. F. F.

**Lavender Toilet Vinegar.**  
Lavender flowers, 1 ounce; alcohol, 1 ounce; distilled water, 1 ounce. Dilute with water to make 1 pint. Mix, macerate for eight days, agitate frequently, then strain through a cloth; heat the colature nearly to boiling; place in several days in a cool place; then filter and bottle, keeping in a dark place.

**Maline for Pompadours.**  
I read in your "Health and Beauty" column of June 24 your description of a "summer Pompadour Plumper" and was much interested.

As one of the mortals striving for the fashionable culture, and I think perhaps your idea may help me, I want to try it and see if you kindly tell me what Maline is, where I can procure it, how much I shall need, and the length and width of the strip you speak of.

Maline is a very thin, rather stiff material, with a weave something like bobbinet, though much finer. You may see it in any dry goods store. I think a half yard would be enough.

Cut it into strips about one inch by five, and follow the directions as originally given.

**Hair Gray in Streaks.**  
Will you kindly give me some advice about my hair? It is very dark, but I am getting very gray. I am 35 years old. For the last year or two, my hair has been gray. It is getting worse and worse. I would like to know a streak of gray hair white to end.

My hair seems to dry, and I am troubled with dandruff. I would like something to darken it. How often should I use it?

Hair that turns gray in spots is much more difficult to treat than when the change in color is uniform. However, I would suggest to you the "Physician's Remedy." Apply it to the gray hairs. This is the formula:

**To Restore the Natural Color of the Hair.**  
(A physician's prescription.)  
Sugar of lead, 15 grains; oil sulphur, 1 ounce; camomile of bergamot, 1 ounce; alcohol, 1 ounce; tincture of cantharides, 1 ounce; ammonia, 1 ounce. Mix all in one pint of soft water. Apply to the roots of the hair, which must be clean.

The dye should never be applied if there is any irritation or abrasion of the scalp.

The best way to use any stain is to apply it to the roots of the hair with a small brush—a toothbrush will answer for the purpose.

The hair tonic for dry hair, I think it will correct the dandruff also.

**Tonic for Dry Hair.**  
Cologne, 1 ounce; tincture of cantharides, 1 ounce; oil of English lavender, 1 ounce; oil of rosemary, 1 ounce. Apply to the roots of the hair once or twice a day. It is positively necessary that the scalp should be kept clean. Shave at least once a week.

**See Answer to Mrs. G. W.**  
Will you be so kind as to publish for me a recipe for hair tonic? I have been using one for some time, but it does not seem to help the growth.

You probably refer to the remedy for falling hair, which is given in the answer to Mrs. G. W.

## Mrs. Henry Symes' Advice to Correspondents

### Brittle Hair

BEING so pleased with your orange-flower cream, I again venture to ask your advice. I have a daughter 15 years old who has a very dark neck, she hasn't a very clear complexion, but compared with her neck, there is a great difference. Could you tell me of a bleach or lotion that is harmless, considering her age? Her hair is very dry and at the ends very brittle. It falls up so that sometimes she is scarcely braided. I wash it once every three weeks, sometimes often.

I would suggest bleaching your daughter's neck with peroxide of hydrogen. This is effective and quite harmless. Apply it at night and morning with a soft rag, allowing it to dry on the skin.

You wash your daughter's hair too often. Under the circumstances, once in four weeks is quite enough. Clip the ends of her hair with the scissors, shortening it about one inch all over. Then singe it. Rub the scalp and the ends with a hair cream. At least a hundred strokes a day besides its regular dressing.

**Reader Advises "W. W. K."**  
Some of my readers may be interested in this correspondent's letter, especially "W. W. K.":

"By accident your page came to me, and when looking it over I read this place, which I inclose:

**"Baby's Legs Weak"**  
"Being a steady reader, I thought I would write you for some possible information. I have a little baby boy, 15 years old. He is a fat, strong and healthy boy, but one of his legs (the left) turns in a little and both of them seem weak from the knees down. He falls considerably when walking. If you know of any device that would aid him, will you kindly let me know?"

"Your baby's legs could be strengthened and strengthened by proper managing of the muscles. I advise you to consult a specialist, who could instruct you as to the movements required."

When my daughter was born her right arm hung lifeless, nothing but skin covering the bones. Of course, we supposed it would always be useless. A friend advised bathing it every day with brandy and salt. She came every day and took care of it, and in a short time we saw good results. Soon the flesh grew and strength came to it, so that it was as good as the other.

I shall never forget the virtue of brandy and salt. I do not know how much salt to put in, as I never had charges of it, and the friend who bathed and worked over the arm is dead. Please let the mother know of it.

I know of another case in my family where a child of three years could not use its legs. The mother was advised to take the child, salt, and skin of salt codfish and bathe the limbs. She followed the advice, with the best result. The child is now a healthy child.

**Caused by Stomach Trouble**  
Can you please tell me what to do for a red nose? I am very nervous and have stomach trouble. I have heard that would make my nose flush? Sometimes it burns and gets itchy. I am 11 years old, and she has a heavy head of hair, and I am afraid that she will lose it. It is chestnut brown. Lately she has much dandruff. You kindly tell me how to remove the dandruff and heal the scalp?

apples and figs, most of the chronic cases of indigestion and constipation would be cured.

Figs—green or dried or pulled—are a particularly good medicine, as are dates, and apples are said to furnish food for brain and nerves in addition to their laxative qualities.

Porterhouse people, and the majority of people with poor digestion, nothing is so good as plenty of lettuce and celery. Spinach is another vegetable with

Message your cheeks; dash them with cold water, following by brisk rubbing. This will bring a glow to your cheeks and help to draw the excess of blood from the nose. Do this at least three times a day.

Before attempting to remove the dandruff from your daughter's head take steps to heal the sores. Apply to each one this cream, which has healing properties:

**Witch Hazel Cold Cream.**  
One ounce of white wax and spermaceti; one-quarter pint of alcohol. Melt, pour into a mortar, which has been heated by being immersed some time in boiling water. Very gradually add three ounces of rosewater and one ounce of witch hazel. Stir constantly with a mixture until an emulsion is formed and afterward add the alcohol. This cream is particularly useful to heal sore or stretched skin.

When the scalp is quite well use this dandruff cure:

**To Remove Dandruff.**  
Tincture of cantharides, 1 ounce; liquid ammonia, 1 dram; glycerine, 1 ounce; oil of thyme, 1 dram. Mix together with six ounces of rosewater. Rub the scalp with this preparation until no further evidence of dandruff is seen.

**To Develop Neck and Shoulders**  
Would you kindly let me know of something that keeps the hair in curl without doing it any harm? Also, please advise me what I should do to develop my neck and shoulders. Will be very grateful.

**Solution to Keep Hair Curled.**  
Take of pure arabic 1 ounce; good moist sugar, 15 grains; pure hot water, 1 pint. Dissolve. When this solution is cold, add alcohol, 1 ounce; oil of clove, 1 dram; oil of bergamot, 1 dram; oil of lemon, 1 dram. Mix together with six ounces of rosewater. Rub the scalp with this preparation until no further evidence of dandruff is seen.

**Prominent Scars.**  
Will you kindly publish the recipe for removing scars again, as I have misplaced the paper it was in.

**To Remove Scars.**  
Lanolin, 1 dram; oil of olive, 1 ounce; oil of rose, 1 ounce. Rub in well once a day.

**Skin Seems Oily.**  
Will you kindly advise me what brand of orange-flower cream to use that will not promote greasiness on the face? I suppose there are many kinds. I have used a few, and have always tried to get as good a cream as I could afford. My face is very oily, and greasy cream makes it more oily in a half hour after applying. Have quantities of the blackheads and open pores, but no pimples. Use camellia oil, but it does not seem to help. I have used green soap but it does not seem to help. I have used a few kinds of face cream, but they all seem to make it more oily. I think your trouble with the oily skin and its blackheads is due to a disturbance in the stomach, or to improper circulation. When remedies

only keep these difficulties in abeyance and do not cure them, the trouble is more deeply seated than in the skin.

You should not use astringent lotions when blackheads are present. It only aggravates matters. Do not bother about the enlarged pores until your skin is in a healthy condition.

**Use Some Depilatory**  
As I have heard and read on your page of orange-flower cream, I should like a growth of hair on my face. I should like to know the recipe for the orange-flower cream.

You are perfectly safe in using this cream on your face. It will not increase the growth of superfluous hair but will remove it. Are you using some depilatory? Following is the cream recipe:

**Orange-Flower Cream.**  
Oil of sweet almonds, 4 ounces; white wax, 1 dram; spermaceti, 1 dram; orange-flower water, 2 ounces; oil of bergamot, 15 drops; oil of lemon, 15 drops. Mix the first three ingredients, add the glycerine to the orange-flower water and dissolve the wax in the mixture, then pour it slowly into the other mixture, stirring continuously.

**The Virtues of Olive Oil**  
In one of your answers to a correspondent, you told her to use olive oil to make her face. Now, did you mean to use it on her face and neck and shoulders? Will it really fatten one? And will you kindly let me know as soon as possible how much and how often to take it?

**Formula for Simple Lotion**  
Will you kindly publish a recipe for enlarged pores of the face, and how to apply it? Mrs. F. M. H.

**Lotion for Enlarged Pores.**  
Boric acid, 1 dram; distilled water, 1 pint. Apply with a bit of old linen or absorbent cotton.

**Moth Patches**  
I seem to be bothered with brown patches on my face. I am healthy, go out every day and have good digestion. If I use Dr. Shoemaker's bleach, how often should I use it and how shall I prepare the bleach for brown spots containing cocoa butter, etc.?

Here is the formula containing cocoa butter:

**Bleach for Brown Spots.**  
Cocoa butter, 10 grams; castor oil, 10 grams; oxide of zinc, 20 centigrams; white precipitate, 10 centigrams. Mix together. Apply to the moths patch night and morning.

If you use Dr. Shoemaker's bleach, mop over the affected parts about once a day.

**Continue the Treatment.**  
I write you with regard to Vaucaire's hair developer. I have taken over one ounce of it and with it I have washed my face. What can be the matter? Kindly tell me what to do. I have heard that the remedy. Also, please tell me if the hair and pimples which continually form on my chin on each corner of my mouth. You know of so many nice remedies, perhaps you can aid me in giving me a recipe for an injection for stomach trouble. My stomach is troubled, I am afraid.

and loose hairs separate themselves to hang down in an unsightly fashion, discontinue the regular brushing (with its downward motion) entirely for awhile, substituting the upward strokes. Keep up the stimulation of the scalp by brushing with the tip of your fingers, describing circular movements, and pressing lightly but firmly enough at the same time to give a thorough little kneading to the scalp, which should leave it in a glow.

Absolute cleanliness is as much a requisite of training the hair as is the constant brushing. Brushing and carefully arranging the hair when it has just been washed and treated to a sun-bath starts it in the right direction before it has had time to get into bad habits.

The training of the front hair into a pompadour has been gone into so fully recently that there needs only the addition to the way to make the pompadour drop upon the forehead, which seems to be the hardest part of hair-dressing for many women.

A strip of muslin laid over the pompadour, so that the hair is pushed down in an even puff upon the forehead, should be drawn fairly tight and fastened to the hair with a rubber band or two at night, or even seen in it for a few nights, so that it is all that is necessary to accomplish what is desired.

Persistent training may make the little lock ends at the base of the neck stay demurely up in place, but you are much surer of being just so if you will push it under the rest of the hair, trusting to an invisible hairpin to keep it in subjection.

Often, when you put up your hair, especially if it has just been washed, a curious "kink" will make one look stick out in an awkward line. The usual way is to push it under the rest of the hair, trusting to an invisible hairpin to keep it in subjection.

Even a "cowlick" may be overcome if the training is persistent enough, and plenty of simple preparations—formulas for many of them published frequently in these columns—come to aid in the work.

Also how often will I use it and with it make the skin rough? ANXIOUS.

Use the peroxide of hydrogen without diluting. Wet the neck and arms with it morning and evening after bathing, applying with a soft sponge or rag. It will not harm your skin in any way, though you should carefully keep it from the hair of the head or the eyebrows.

**Scar Left From Boil**  
I am a young man, 20 years old. About six years ago I had a boil on my face, and it left a deep mark on my face, and I feel very sorry over it. I would like to know if I can get rid of it. Would like your advice.

If the scar is a red mark and not too large, the following formula may remove it, but if it is a white disfigurement, as in the case when the tissues do not reform naturally, it will never disappear.

**Salve for Scars.**  
Lanolin, 1 dram; oil of olive, 1 ounce; oil of rose, 1 ounce. Rub in well once a day.

**To Hasten Results.**  
I have a quantity of superfluous hair on my face, of which I am very anxious to be rid. I have used a depilatory, but it does not seem to help. I have heard that the remedy. Also, please tell me if the hair and pimples which continually form on my chin on each corner of my mouth. You know of so many nice remedies, perhaps you can aid me in giving me a recipe for an injection for stomach trouble. My stomach is troubled, I am afraid.

**A Harmless Bleach**  
I have read in your columns that peroxide of hydrogen is a harmless bleach for the neck and arms, and I should like to know how to use it in its raw state or is it diluted?

Even a "cowlick" may be overcome if the training is persistent enough, and plenty of simple preparations—formulas for many of them published frequently in these columns—come to aid in the work.

## REPORTS FROM THE HUNTING GROUNDS

## VARIED STATEMENTS MADE BY SPORTSMEN

Regarding Outlook For Season—Prohibition of Shooting in Oak Bay District Discussed.

As the date of the opening of the shooting season approaches local hunters grow more and more eager in their anticipation. Wherever are gathered two or three interested in shooting the outdoors forms the principal subject of discussion. Guns have long since been removed from their racks and burnished up, while dogs are receiving more attention than at any previous time during the year.

During the past several weeks a number of the more enterprising sportsmen have visited the different resorts to obtain some idea of the number of grouse there are in comparison with foregoing seasons. Their reports vary to such an extent that it is impossible to come to any decision, so that to secure correct information it will be necessary for each individual to investigate on his own behalf. Some state that the birds are more numerous than ever before, that the covers are larger, the remarkably dry spring, summer and fall having given them an exceptionally fine opportunity to raise their broods successfully. Others contend that, while there are quite a few in the immediate vicinity of the E. & N. railway and at other nearby spots, there is a marked scarcity back in the mountains and further away from civilization. It is argued from these indications, that sportsmen will find it difficult to obtain creditable bags after the first few days of the season. However, this is all conjecture. Very few prophesies have proved correct in the past, and it is doubtful if those made this season can be relied upon to any greater extent than heretofore.

The prohibition by the municipal council of Oak Bay of the shooting of firearms within that district has created considerable debate in sporting circles. It is pointed out that this action excludes a large section, teeming with game, particularly pheasants, from the hunter including, as it does, all the country lying between Cadboro Bay and Foul Bay. While acknowledging that the arguments of the councilors regarding the carelessness of some of those carrying firearms and the danger of life in consequence, sportsmen cannot see why the sport of old and reliable shots should be interfered with because of the recklessness of others. The action of the representatives of Oak Bay, they affirm, may have the effect of inducing those of the new Spanish municipality to do the same, and other districts, as they become organized—might take the same course. In this way it would become impossible for ardent hunters to enjoy a harmless afternoon's sport without traveling miles and miles away from Victoria. Moreover they think it exceedingly doubtful if the new regulations can be enforced, that is, whether the councilors in question have the power to introduce such legislation. In view of the latter fact an interesting time is expected should any arrests take place as a result of the by-law recently passed by the municipality of Oak Bay.

However, only a few more days remain before the opening of the season. In the meantime, as already stated, the gunsmiths are doing a record business in the sale and renting of guns, and the supplying of ammunition to those who purpose having a whack at the grouse during the first few weeks of next month. It is safe to say that there will be such a flow of hunters to points along the E. & N., to the adjoining islands, and to other "happy hunting grounds" as has never before been seen in the history of Victoria.

## THE OAR.

## ORDER NEW BOAT.

Putney, Aug. 29.—The result of Cambridge's trial this morning was distinctly disappointing to the supporters of the home crew, and Harvard went out several points. The Cambridge men themselves were seemingly dissatisfied, for the result of a short consultation after the trial, they decided to immediately order a new boat of Clasper.

## NEW ROWING CLUB.

Seattle has the finest rowing course in the United States, one which the Eastern Universities would pay fabulous sums to possess, said Capt. A. J. Halliet, the famous Yale oarsman, the other afternoon in response to the ovation he received when Capt. R. B. Hughes, formerly of the famous Argonaut crew, announced his election as president of the Seattle Rowing Club.

In fact, continues Hughes, he does not know of a city in the world which has as magnificent opportunities for aquatic life as Seattle. Seattle has not only the finest rowing course for many years, but the hard times are now a thing of the past, and there is no reason why a club should not be a success, yes, a great success, health and pleasure.

"The club will be patterned, to a great extent, after some of the widely known organizations of the East, and include special features, such as an occasional trip and an annual grand ball. Membership matters, for the time being, are in the hands of a committee.

"At the present time it is the intention of the club to include canoeists, making

provision for them in the proposed club house, which will probably be located on the shore of Lake Washington, near Madison street. Capt. P. D. Hughes, Richard Hayter, E. P. Blaine, Fred W. Alexander and Portus Baxter were appointed a committee to investigate the matter of a site.

"The committee, which will report at the next meeting on rules and organization, was appointed by President Halliet following the meeting of the Seattle Rowing Club, held at the residence of Hughes, Richard Hayter, Thomas Hudson and A. S. Goldsmith."—Seattle Times.

## THE RIFLE.

## WINNINGS OF WESTERN MEN.

As stated in yesterday's Times, the First Royal Canadian Artillery, Halifax, won the first team prize of \$45 in the old Borden match at the Dominion Rifle Association meeting at Ottawa. The second prize, \$30, was won by the Fifth Regiment, Victoria, score, 125. The cup winner in the match, seven shots at 500 yards, was Private Eastcott, of the Victoria Rifles, Montreal. Sergt. Brayshaw, Fifth Regiment, was fourth, winning \$2. Moscrop, Vancouver, won \$5; Caven, Victoria, \$6; Lehman, Vancouver, \$5; Forest, Parris, Schater and Perry, Vancouver, and Carr, Victoria, each \$3.

In the Ross match, seven shots were fired at 200 yards, exposure being for three seconds only between each target. Private Short, of the Ottawa Guards, won first prize, \$20; Caven, \$10; Brayshaw, Carr and Richardson, Victoria, each \$5.

The school cadets match, 7 shots at 200 yards, was won by the Harbord Collegiate Institute, Toronto, with a score of 95, although only three men competed.

The thousand yards was won by Corporal Brown, Hamilton, Cunningham, Vancouver, Carr and Richardson, Victoria, each \$5.

Tyros, Parris, Vancouver, \$4.

The annual meeting of the Millia Rifle League was held to-night when the prizes were distributed. Col. Bate, C. G. F. G., Ottawa, was elected president; Major Winter, secretary.

## ASSOCIATION FOOTBALL.

## ANOTHER SEASON.

"The knights of the pickin' are about to enter upon another season, under very glowing prospects," says the New Westminster Columbian. "A meeting will be held on Thursday evening to make the arrangements for the season's sports and to organize the team."

A statement has been issued by the executive of the club, which in part follows: "The annual general meeting of the Rovers Association Football Club will be held on Thursday evening. The club contemplates running three teams this season. However, this is all conjecture. It is also proposed to form city leagues for intermediate and junior players, the proposed conditions for which will be discussed at this meeting."

## THE TURF.

## THE GREAT FUTURITY.

A New York dispatch dated Wednesday says: "The great Futurity, worth about \$50,000, will be run over the six furlong straight course at Sheepshead Bay Saturday. The predictions are for favorably weather, and the Coney Island Jockey Club anticipates an attendance of at least 50,000 persons. The Futurity is the largest stake offered in this country for horses. It is not an old event, but is the precursor of a number of similar large stakes, like the Matron, the Brighton Derby, and the like. None has attained the celebrity of the Futurity, however, which has come to most race followers outside the regular track contingent, to be the one race of the year to rank at least with the Suburban and Brooklyn handicaps as an event to be watched at all costs."

## GOLF.

## OPENING OF TOURNEY.

Niagara-on-the-Lake, Aug. 29.—The 12th annual tournament of the Niagara Golf Club opened on the local links to-day, and will continue through the remainder of the week. The Niagara challenge cup, now held by Douglas Laird, of Toronto, will be again played for.

## LAWN TENNIS.

## CLOTHING VICTORIOUS.

Newport, R. I., Aug. 29.—Wm. J. Clothier, of Philadelphia, to-day won the national tennis championship, defeating Beals C. Wright, of Boston, the present holder, 6-4, 6-0, 6-4. The ease with which

he won from Wright was one of the surprises of the tennis year.

A victory for Wright, or at least a hard fought contest, was anticipated, but that Clothier should win in straight sets was beyond the calculations of even the closest followers of the sport. Wright's playing was 50 per cent. below the form shown on the same court last year, when he won the title from Holcombe Ward.

## BASEBALL.

## WITH PROFESSIONALS.

L. A. Wattlet, who played second base for the Hillside in a number of matches, has accepted a position with the Seattle league team. He left Victoria only a few days ago.

## SKATING.

## AT THE RINK.

There was a large crowd at the roller skating rink, Assembly hall, last evening. From an early hour until late the floor was occupied by hundreds of enthusiasts, the programme being judiciously varied by the management. An orchestra was in attendance, enlivening the proceedings with pleasing selections.

## DEATH AT THE ALTAR.

Bridegroom Succumbed to Attack of Apoplexy When Ceremony Concluded.

At Lindsay, on the Swiss-Austrian frontier, a middle-aged man named Buhler was married the other day, and the pastor had barely concluded the ceremony, when the bridegroom, who had been complaining of the heat, fell unconscious at the feet of his young wife at the foot of the altar. Among his friends who were in the church was a doctor, who hastened to his side.

Buhler, however, was beyond human aid, having succumbed to an attack of apoplexy. His hysterical bride whom fate had made a wife and a widow within a few minutes, was gently led out of the church, and a hearse transported the dead bridegroom to his home.

## PHOENIX NOTES.

The first ore ever sent out from the Dominion Copper Company's Idaho mine in this camp, consisted of five cars, or about 150 tons. Great activity has prevailed at the Idaho mine for several months past, in getting ready for shipments on an extensive scale. The main working shaft has been sunk and timbered and connected with the workings of the company's Brooklyn mine adjoining, and much development has been done underground. In addition to this a long tunnel has been driven, largely in ore, which runs under the Great Northern spur to the Granby mines. An open quarry or glory hole is being opened above this tunnel, the ore to be dropped to the tunnel level and taken out economically. The new machinery plant recently ordered by the Dominion Copper Company is to be installed at the Idaho, and will be delivered shortly, including an air compressing plant of 25 drills. The large hoist formerly at the company's Sunset mine, Deadwood camp, has been brought here also for the Idaho. The machinery is being put in place.

With the gradual lowering of the water in the Snowshoe mine in this camp, recently started by the Consolidated Mining & Smelting Company, the force at the property is being increased by the manager, Charles Bisset. At present about 40 men are on the payroll, and last week a night shift was put on. The large air compressor has been placed in commission, the smaller one having been in use temporarily. The mine is shipping more or less regularly, the output being sent to the Trail smelter.

A life size statue of the Virgin and Child carved in stone by some unknown French sculptor of the late fourteenth century was sold recently in London for \$2,750. It belonged to Lord Grimthorpe and came from the church of St. Evroult, near Laigle. The old bronze, marbles, fancies and furniture in this, the third Grimthorpe sale, brought a total of \$52,750.

## YOU CAN SAVE \$13.15

## TO-DAY

A well made to measure suit from your tailor costs \$25.00. Thousands of smartly dressed men in Canada save that \$25.00. They deal with us and PAY only \$11.85.

## A SUIT OUR SPECIAL FREE BONUS OFFER

We will present every READER of this PAPER, who places an order for our \$11.85 suit, during this month, either

One Pair of \$6.00 Trousers (to measure) FREE, Or a Stylish Fancy Dress Vest, FREE.

SUIT CASE, with a really elegant PATENT SUIT CASE, entirely FREE with every order for a suit.

YOU ARE UNDER NO OBLIGATION TO BUY, and we will REFUND your money if you find either the Special Suits or the FREE GIFTS are NOT EXACTLY as advertised in this paper. We will send you, FREE OF ANY CHARGE whatever, a handsome range of patterns, including our wonderful value Blue and Black Serge and Cheviot Tweeds, together with our latest New York Fashion Plate. THEN JUDGE FOR YOURSELF. Our home measurement system is so SIMPLE that we require only 5 measurements (which anyone can take) to enable us to give a PERFECTLY FITTING tailor made garment. You choose your own suit and pattern.

The Mail-Fit Clothing Co., Pattern Department, 72 Port St., Montreal, Can.

## HELLO!

Central! Give me the whole city, as I want to advise the public that we can supply them with showers to fit any bath tub from 50c. up.

If you want to have a genuine good bath you should take the shower after having the plunge, which cleanses the oiliness from the skin and closes the pores, which prevents you catching cold. Doctors advise this, why shouldn't we.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for hard coal. Not more than 250 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—A free miner's certificate is granted upon payment in advance of \$5 per annum for an individual, and from \$5 to \$100 per annum for a company according to capital.

The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

PEACER mining claims generally are 100 feet square, entry fee \$1, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lease shall have a dredge in operation within one season of the date of the lease for each five miles. Rental, \$10 per annum for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output after it exceeds \$10,000.

W. W. CORY, Deputy of the Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

Notice is hereby given that, 30 days after date, I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber upon the lands situate on Yeo Island, Skeena District, British Columbia, described as follows:

No. 1.—Commencing at a post planted on the west shore of Yeo Island about 1 1/2 miles south of the north end of said island, thence following the shore line northerly, westerly and southerly to the point of commencement.

No. 2.—Commencing at a stake at the southwest corner of No. 1, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 3.—Commencing at a stake planted on the shore about one mile south of the S. W. corner of No. 1, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 4.—Commencing at a stake planted at the southwest corner of No. 3, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 5.—Commencing at a stake planted on the west shore about one half mile south of the S. W. corner of No. 4, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 6.—Commencing at a stake at the S. W. corner of No. 5, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 7.—Commencing at a stake at the S. W. corner of No. 6, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 8.—Commencing at a stake at the S. W. corner of No. 7, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 9.—Commencing at a stake at the S. W. corner of No. 8, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 10.—Commencing at a stake at the S. W. corner of No. 9, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 11.—Commencing at a stake at the S. W. corner of No. 10, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 12.—Commencing at a stake about half a mile south of the S. W. corner of No. 11 on the shore, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 13.—Commencing at a stake at the S. W. corner of No. 12, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 14.—Commencing at a stake at the S. W. corner of No. 13, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 15.—Commencing at a stake at the S. W. corner of No. 14, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 16.—Commencing at a stake at the S. W. corner of No. 15, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 17.—Commencing at a stake at the S. W. corner of No. 16, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 18.—Commencing at a stake at the S. W. corner of No. 17, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 19.—Commencing at a stake at the S. W. corner of No. 18, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 20.—Commencing at a stake at the S. W. corner of No. 19, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 21.—Commencing at a stake at the S. W. corner of No. 20, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

No. 22.—Commencing at a stake at the S. W. corner of No. 21, thence running east 30 chains, thence south 30 chains, thence west 30 chains to shore, thence following shore to point of commencement.

ST. GOVERNMENT ST. VICTORIA, B.C.

minister will be made on D. G. S. Quadra.

Upon arrival in Victoria, His Excellency will drive to the parliament buildings where a civic address will be presented by His Worship the Mayor.

So far, the only other public function the Governor-General will attend is the reception at the parliament buildings on the evening of September 17th.

At the last meeting of the city council a committee, consisting of Ald. Goodacre, Douglas and Yates, was appointed to arrange as to a reception on behalf of the citizens of Victoria, but nothing can be stated definitely as to this until His Excellency's desires are known.

## LOCAL NEWS

—Orchestral concert and blocope. Gorge park.

—The steamer Camosun, of the Union Steamship Company's fleet, is to be launched to-day from the ways of the B. C. Marine railway. She will resume her northern run, as previously mentioned, on Friday.

—Thos. Miller, of Esquimalt, who a few days ago fell from a moving street car opposite the site of the old canteen buildings, is now making satisfactory progress. His head was injured by the fall and rendered unconscious. He is in St. Joseph's Hospital.

—Word has been received by J. F. Deaville, of the Federation Canning Co., that the total salmon pack on the Fraser river for past season amounts to 178,000 cases. It was composed principally of half-pound and pound tins. This is an approximate computation.

—The principal and staff of the Girls' Central school beg to announce that their opening exercises will take place in the Pemberton gymnasium on Friday afternoon, the 31st inst., at 2:15 o'clock. In order to provide better seating accommodation for visitors the programme of junior and intermediate classes will precede that of the seniors. The school will be assisted in their musical programme by Mr. Longfield's orchestra. Rev. Leslie Clay has kindly promised to deliver the address to the entrance class and present diplomas to the successful candidates. The rolls of honor will be awarded by Mr. Huggett, chairman of the school board, and promotion lists read by the principal. Trustees, clergy, parents and the public generally are cordially invited to be present.

## TROUBLE AT BABINE

Messages From the North Indicate That Conditions Are Not So Serious As Reported.

The reports from the Babine Lake district relative to the Indians being in a state of open rebellion and requiring the presence of an armed force, appear, judging by late information from Hazelton, to have been very much exaggerated.

A. W. Vowell, superintendent of Indian affairs in the province, when he heard of trouble having arisen, communicated with the Indian agent at Hazelton. The answer received to-day allays the anxiety very materially. The agent telegraphed Mr. Vowell that he was taking steps necessary to do so. There was nothing in the message received by Mr. Vowell to indicate that the situation was at all serious, and it is believed therefore that all may now be quiet again in the district.

The trouble arose from the destruction of the barricades which the Indians placed in the Babine river and other streams to take fish contrary to the regulations. Destruction of these followed by the officials of the fishery department, and according to the reports received in Vancouver the Indians forcibly resisted their work.

## EXCURSION TO GANGES.

Arranged to Take Place by Steamer City of Nanaimo on Monday.

It is announced that next Monday, Labor Day, an excursion will be held under the auspices of the Young Men's Christian Association to Ganges Harbor, Salt Spring Island. The steamer City of Nanaimo has been engaged for the occasion. She will leave the C. P. R. wharf at 10 o'clock. It has been decided that tickets shall be sold at the rate of one dollar each for adults and half price for children under thirteen years of age.

As it is conceded that Ganges Harbor is the finest place among the islands for such an outing a large attendance is assured. Besides the advantages of the spot mentioned as a picnic ground the route to be followed in going and coming is one which has always been admired.

An excellent programme of sports has been arranged. It will include football and polo games, both of which should prove interesting alike to participants and spectators. The Chetahs, a local team, which will be in attendance, will render several programmes of carefully selected and appropriate numbers. Meals will be served at moderate rates. In fact, nothing will be left undone in the endeavor to give the association's guests a pleasant time.

At the Y. M. C. A. Labor Day excursion a year ago some of those who bought tickets at the last minute were turned away at the boat, so, in order to encourage the early purchase of tickets this year, it has been decided to give a reduction to those who purchase this week. The price to such being seventy-five cents for adults and forty cents for children. On Monday at the boat the regular rates of \$1 and 50 cents will be charged.

## TRAP FISHING SEASON.

Representations Made to Ottawa Asking For Relief From Restrictions Recently Imposed.

Representations are being made to Ottawa by trap owners and others interested in the industry, pressing for the suspension of an order-in-council recently passed prohibiting the taking of fish in the traps from August 25th to September 15th. The regulations of the department prohibit fishing in the Fraser river. When these regulations came into effect the traps were not allowed. In order to bring them within the restriction an order-in-council was passed creating the close season.

The trap men are of the opinion that this very seriously affects them and are petitioning the department at Ottawa to give them relief from it. The contention of the trap men is that the permission to continue fishing from August 25th to September 15th would in no wise affect the spawning grounds. There are no sockeye being taken in the traps now and even if there were they could be liberated.

The cohoes and spring salmon might be taken by the traps, however, if they were allowed to operate in the close season referred to. At the present time the United States trap men on the Sound are capturing these fish which pass the Vancouver Island traps.

After September 15th the permission to take fish would be useless as the weather is usually such as to prevent any fishing by traps.

The trap men further argue that they have on hand the tins sufficient to can the take of cohoes if they are allowed to do it. If they are not the tins will be a loss, and having prepared for a sockeye run, which failed as far as the traps were concerned, the season of 1906 will be a disastrous one.

Replies to the representations sent have not yet been received.

## WIFE OF BRITISH PREMIER DEAD

(Associated Press.)

Marionbad, Aug. 30.—Lady Campbell-Bannerman, wife of the British premier, Sir Henry Campbell-Bannerman, died to-day. She had been an invalid for years.

A German scientist, after several years spent in experiments, has calculated the value of a flash of lightning in electric current at \$1,600.
